THE GSEF CO-DESIGNS SOLUTIONS WITH YOU

YOU ARE...

**A local or national government,
a public institution**

**A structure or network in the
Social and Solidarity Economy**

**An economic player involved in the
dynamics of its local area**

**An international organization
or agency**

The GSEF is a platform for all players, on every continent, who wish to develop ecosystems favorable to the Social and Solidarity Economy (SSE) on their territory, to make it a vehicle for sustainable and inclusive local development.

YOU'RE LOOKING TO...

Strengthen the skills and know-how of your local SSE stakeholders (elected representatives, technicians, management and services, companies and organizations, etc.)

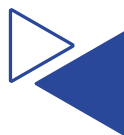

Structure a network of players and/or local governments involved in the SSE (local and national chambers, economic clusters, etc.).

Advocate for the implementation of legal frameworks to support the SSE (access to financing, support mechanisms for SSE players, etc.).

Develop or improve a public policy, a national SSE strategy or a sectoral policy (youth, gender, public procurement, etc.).

LET'S BUILD TOGETHER AN APPROACH TAILORED TO YOUR CHALLENGES AND RESOURCES

Take advantage of the 12 years of expertise of a global network of players, operating in 35 countries and committed to local SSE dynamics, to strengthen your capacities, structure your initiatives and help your local public policies evolve.

► Awareness-raising and advocacy on SSE

- Workshops and training on SSE principles and challenges
- Sharing best practices through case studies
- Learning tours to learn about inspiring and tangible initiatives

► Structuring and networking

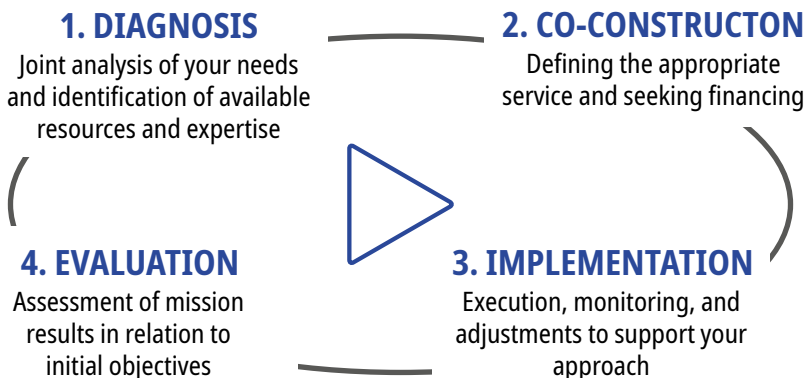

- Connecting local players and creating spaces for exchange
- Support for participative governance of SSE ecosystems
- Mapping and analysis of local SSE dynamics

► Development of public policies

- Assessment of existing regulatory frameworks and strategies
- Technical support in structuring strategic approaches and integrating the SSE into public policies
- Drawing up action plans, monitoring progress and evaluating results

ABOUT THE GSEF

Global Forum
for Social and Solidarity
Economy

Founded in 2013 in Seoul, the GSEF - Global Forum for Social and Solidarity Economy - is a global network of local governments and civil society players committed to promoting and developing the Social and Solidarity Economy.

Its 90 members, present in 35 countries on 5 continents, represent the diversity of SSE stakeholders: local governments, networks, associations, cooperatives, mutual societies, foundations, social enterprises, universities...

We support the development of the SSE throughout the world, by fostering dialogue between public authorities and SSE players to co-construct local public policies contributing to the achievement of the **Sustainable Development Goals** and the emergence of ecosystems favorable to the SSE.

THE SOCIAL AND SOLIDARITY ECONOMY

The Social and Solidarity Economy is recognized by the United Nations as a key driver of sustainable and inclusive development.

Based on cooperation, democratic governance, and the primacy of people over capital, it strengthens territorial resilience by structuring local economic ecosystems, creating sustainable jobs, and fostering social innovation.

In response to economic, social, and environmental crises, SSE provides solutions tailored to community needs while supporting a transition towards a fairer and more sustainable model.

The GSEF upholds these principles and actively participates in the United Nations Task Force on SSE (UNTFSSSE) to promote its role on a global scale.
